Boston Children's Hospital
in their research efforts.

Congratulations on your
Fundraising Event.

Tec-Mar
INDUSTRIES, INC.

OUR MISSION

Our mission is to fund research at Boston Children's Hospital that will aid in the treatment and cure of pediatric heart defects...

Specifically, research on tissue engineered heart valves. This is one of the greatest hopes for reducing the number of open heart surgeries over the course of a child's life...

Also reducing the risks associated, from developmental impairment to death. Tissue engineered heart valves will be an exponential leap in the survival and quality of life for children born with life threatening heart defects.

With Great Appreciation

AUCTION RULES

To place a bid in either the live or silent auction, you must first register. Upon registration, your name and address will be verified and you will be given an auction book, with your bid number posted on the back of the book. Use this bid number for bidding in both the live and silent auctions.

The auction committee reserves the right to add or withdraw, without notice, items to or from the auction.

Highest bidder must contact auction donor to arrange and redeem auction items. Healing little Hearts, Boston Children's Hospital and all volunteers involved are not responsible for any redemption details regarding the auction items purchased. Please read all restrictions and expiration dates before bidding.

Successful bidders will pick up their merchandise the night of the gala, after payment. Special arrangements can be made for larger items. Payment is to be made in full, by cash, check (made out to: **Boston Children's Hospital**), Visa, Mastercard or American Express.

LIVE AUCTION RULES

The live auction begins approximately at 9 p.m.

Each item will be described by the auctioneer and a starting bid will be given. To enter a bid during the live auction, you must raise the back of your auction book to attract the auctioneer's attention so he can see your bid number. This must be done every time you initiate or increase a bid.

The auctioneer reserves the right to reject any bid that, in his opinion, does not commensurate with the value of the offered item.

Each bid legally obligates the bidder to pay the price in full if that price is deemed the high bid when the auctioneer calls "**SOLD.**" The buyer will be presented with a bid sheet for signature to include their bid number and the price of the items purchased.

Winning bidders will be announced and can retrieve their items at checkout.

SILENT AUCTION RULES

To place a bid in the silent auction, simply write your name, bid number and bid amount on the appropriate line of the bid sheet. All bids must be in at least a minimum of \$20 increments or the bid will not be counted. Bids must be listed below previous bid. To increase your bid, write your bid number and your new amount below the last entry.

Bidders do not have to take the next available bid amount, but may skip ahead on the form and put in their preferred purchase amount. Subsequent bidders must bid higher amounts to be successful.

The silent auction will close in a staggered fashion by sections listed in the auction book, with the final categories closing at approximately 8:45 p.m. There will be notice given before each section closes.

No additional bids will be accepted once the "auction closed" announcement has been made.

The last signature (and the highest valid bid) on the bid sheet will determine the winning bid. Please do not remove bid sheets, items or props from the tables.

All winning bidders can retrieve their items at checkout.

CHECK-OUT BEGINS 30 MINUTES AFTER SILENT AUCTION CLOSES.

TAX INFORMATION

Questions regarding the tax deductibility of purchases or donations should be referred to your personal tax accountant.
